BRISTON 

The new **Streamliner Kennedy**: back to basics

This year, **BRISTON** reinvents its iconic case with a brand-new collection of square watches for men and women.

Inspired by the American **Streamline** movement of the 1930s, which made modern design its signature, the **Streamliner Kennedy** collection adopts the codes of Art Deco: geometric shapes, symmetry and subtle contrasts between straight and curved lines.

With its natural elegance and resolutely vintage style, **Streamliner Kennedy** is a modern reinterpretation of Art Deco. Its refined square case is enhanced by tortoiseshell acetate sides, while the angles of the lugs are designed to ensure perfect visual continuity.

The name **Kennedy** is a perfect match for this classic, timeless watch. The watch's design evokes a retro yet modern sophistication, just like the style of the Kennedys often associated with preppy, polished elegance. Indeed, **John Fitzgerald Kennedy** is a symbol of the American preppy movement: a blend of casualness and refinement. JFK was certainly one of the most prominent figures in this style, often cited as one of the most elegant presidents in history, with a predilection for discreet yet sophisticated accessories. The **Streamliner Kennedy** is the perfect blend of this modernity and heritage, promoting an image of casual and timeless elegance.

Except the chronograph model, each watch in the collection has taken up a real technical challenge: to highlight the acetate while guaranteeing optimum functionality. To achieve this, the crown, positioned at 12 o'clock, is adorned with a lapis lazuli cabochon, adding a touch of sophistication.

The case finish, the result of meticulous design, is a key element of this collection. The tortoiseshell acetate sides feature a mirror-polished finish, and each case is securely fastened with two side screws, ensuring perfect integration of materials.

The new **Streamliner Kennedy** a new collection for every wrist

Designed for optimum comfort, the **Streamliner Kennedy** collection offers four distinct models:

-  A Quartz Chronograph with small seconds (38.5 x 38.5 mm)
-  An ultra-thin automatic model (36 x 36 mm)-
-  Medium-sized model, suitable for both men's and women's wrists (30 x 30 mm)
-  Small-format model, a "jewel" watch perfectly suited to the thinnest wrists (25 x 25 mm)

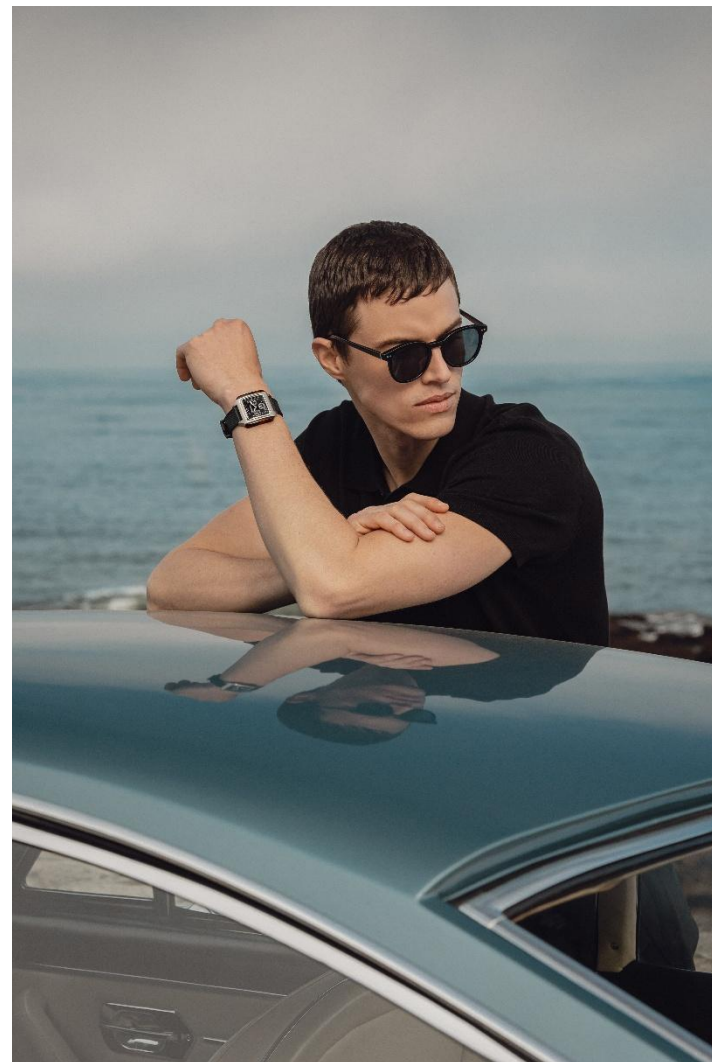

In harmony with the case design, each watch features a sophisticated double-layer dial, available in black or silver-white:

-  An upper layer with alternative stamped Roman or Arabic numerals, echoing the emblematic dial structure of the **Clubmaster Classic**.
-  A "railway" minute track harmoniously linking the lower central part.
-  A lower central zone, whose depth is highlighted by a refined "guilloché" work.

The new **Streamliner Kennedy** : high-precision movements

In terms of mechanism, the collection features high-precision movements:

- ❖ **Extra-flat automatic model:** Miyota 9039 movement, with blue steel or steel central seconds hand, offering a contemporary version faithful to **BRISTON**'s DNA. The transparent case back reveals the caliber, adorned with an oscillating weight featuring the brand's coat of arms.
- ❖ **Quartz chronograph:** equipped with the Miyota JS20 movement, it has a unique feature: the seconds hand at 6 o'clock is activated as soon as the chronograph is triggered.
- ❖ **Medium and small models:** powered by the Swiss Ronda 751 caliber, renowned for its reliability and exceptional 7-year autonomy.

Interchangeable straps for infinite customization

Interchangeability is a hallmark of **BRISTON**. Each case is designed to fit the brand's entire collection of bracelets and straps.

In just a few seconds, you can personalize your watch with single or double-turn straps, in NATO, FKM, leather or steel bracelets, as you wish.

3 sizes of bracelets are available :

-  20mm lugs for chronograph & automatic models
-  18mm lugs for the medium model
-  12mm lugs for the small model.

With the **Streamliner Kennedy**, **BRISTON** offers a collection with a timeless design, sublimating Art Deco and watchmaking savoir-faire, while offering infinite customization.

Streamliner KENNEDY

BRISTON 

BRISTON : 12 years of reinventing sport-chic watchmaking

*Founded by Brice Jaunet, after 15 years with some of the world's leading watchmakers, **BRISTON** is a brand that shakes things up by combining traditional watchmaking with a sporty-chic spirit. Its identity is based on innovative materials such as cellulose acetate, usually used in eyewear, which gives watches a unique, sophisticated look. Often paired with an interchangeable, robust and elegant NATO bracelet, it embodies the brand's British and casual chic DNA.*

***BRISTON** has won over a wide audience, from watch enthusiasts to Trendsetters, Dandys and Preppys. With iconic models such as the **CLUBMASTER** and **STREAMLINER**, the brand celebrates its 12th anniversary this year, affirming its success and unique positioning in the watchmaking world.*
