BRISTON 

The new **CLUBMASTER DIVER PRO**: performance dedicated to style

Having become symbolic, the diver's watch has established itself as the ultimate male accessory. BRISTON presents its new model: the **Clubmaster Diver Pro**, a diving watch dedicated to sports performance ...

Made of matt black cellulose acetate or brushed stainless steel, the ultra-robust 44x44mm case withstands a pressure of 30 bars. It has a screw-down crown at 4 o'clock for perfect water resistance up to 300 meters and fitted with a unidirectional rotating black ceramic bezel.

BRISTON has developed a beveled and notched bezel in ultra-resistant ceramic with anti-corrosion properties. Matt black, it is insensitive to ultraviolet and scratch-resistant.

In the depths of the sea, the legibility of the dial is an essential condition for safety. This is why BRISTON has equipped its Clubmaster DIVER PRO dial with graduations, indexes and hands endowed with the most powerful of luminous coatings: the natural Super-Luminova® allowing perfect reading in all conditions.

On the movement side, this new model is equipped with the automatic caliber Seiko NH35 recognized for its reliability specially developed with a tone-on-tone date positioned at 4 o'clock in front of the crown.

Comfortable and malleable underwater, BRISTON offers this novelty assembled on interchangeable straps, in NATO type version, the brand signature or in silicone with "soft touch" treatment enhancing its sporty character.

Clubmaster *DIVER PRO*

BRISTON: when time becomes the accomplice of our relaxing hours, when time becomes an unconventional accessory...

Brice Jauret, BRISTON's founder, has a wealth of experience in the luxury watch industry, dating back 15 years. Brice's passion and proven market knowledge led to the creation of BRISTON as the synthesis of a personal and professional life dedicated to the watches.

Resulting from his thoughts & researches, Brice Jauret wanted to create a beautiful, true & authentic timepiece but also affordable. From this spirit, BRISTON creates its own particular style with a strong classical watchmaker DNA but bringing this smart & casual touch with the use of innovative raw material and a variety of colors that creates its authentic style.

Twisting the cellulose acetate, traditionally used in the eyewear industry, and proposing this raw material in unexpected colors to adorn its collection is an innovation that reinforces BRISTON's sport chic look & British spirit. Modern, chic but yet casual, the BRISTON watches seduce either Hipsters, Dandies, Preppies & Trendsetters, - whether they are men or women - or just watch aficionados.

From the very beginning, the NATO strap has been chosen by the founder to highlight the brand's marked DNA: the British and sport chic spirit.

Because time flies inexorably, BRISTON has already 7 years of existence. Seven years after its successful launching at Colette in Paris, seven years through which the young watch brand has established itself.

Distribution

BRISTON is now distributed in more than 1000 points of sales in 50 countries around the world. In France, we count up on more than hundred and fifty doors at end of February 2020 including premium watch stores, Department Stores and Concept Stores.
