BRISTON 

THE NEW Streamliner Kennedy

🛡️ Designing a new case shape (square) combining straight lines, breaks and curves

🛡️ The **Streamliner Kennedy** is a modern interpretation of a square watch, in keeping with **BRISTON**'s design codes and spirit. (preppy, elegant)

🛡️ Create a new pillar within the **BRISTON** collections, with a third distinctive shape that sublimates the brand's expertise in materials (acetate) and watchmaking.

🛡️ Highlight our watchmaking expertise in every detail: design / double-layer dial and new movements (quartz & automatic)

🛡️ This new collection is composed by **4 different models** that will appeal to a wide range of customers

- Quartz Chronograph with Small second model (38.5x38.5mm)
- Extra-flat automatic model (36x36mm)
- Medium-size model, suitable for both men's and women's wrists (30x30mm)
- Small size model - a "jewel" watch that fits in the palm of the hand for women (25x25mm)

🛡️ Finally, **BRISTON** proposes you a complete palette of **matt imitation alligator leather straps** to dress these new models. Interchangeable & available in both 18mm & 20mm of width, they are equipped with an easy pins system to remove the strap. Especially developed by **BRISTON**, these 2-part leather straps strengthen the elegant spirit of the new **Streamliner Kennedy** models. (10 references)

🛡️ Launch date: May 2025

BRISTON 

"STREAMLINE" (1925 – 1960)

- 🇺🇸 American design movement of the 1930s - "Streamline" style or modernism
- 🇺🇸 Birth of this current a little before the crisis of 1929
- 🇺🇸 "Art Déco" is the mother of the Streamline movement
- 🇺🇸 Sober design but with curves, dynamism, fluidity (obsession with aerodynamics)
- 🇺🇸 Pioneers: Americans Donald Deskey, Henry Dreyfuss, Norman Bel Geddes or Walter Dorwin Teague.
- 🇺🇸 The figurehead and leader is the Franco-American Raymond Loewy with the Boeing passing through trains, cars, household products, up to the logos of popular brands like LU or NEWMAN
- 🇺🇸 He continues to influence automotive and industrial design but also the organic / technological design of Jonathan Ive at APPLE or brands like NIKE. 4

THE STREAMLINER KENNEDY SPIRIT

Inspiration: the formal yet casual preppy style represented by JFK & his wife Jackie.

His legendary charm, and that of his wife Jacqueline, was due in no small part to the style inherited from the traditional Ivy League wardrobe.

With this in mind and **BRISTON**'s very casual Sport Chic DNA, it seemed only natural to name this latest model **Streamliner Kennedy**.

Target: urban, casual & preppy

BRISTON 

THE CASE & DESIGN

The new **Streamliner Kennedy** watch is inspired by the Art Deco artistic movement and takes up its codes:

- Square case and dial opening symmetrical design
- Curved case sides in tortoiseshell acetate
- Horns (curves) and case sides in line with the curved case
- Crown integrated into the case at 12 o'clock (except chronograph model) set with a lapis lazuli cabochon.

With its sleek, dynamic and fluid design, the **Streamliner** case has been designed for optimum comfort on all wrists:

- Chronograph Small Seconds Quartz (38.5 x 38.5 mm)
- Ultra-thin automatic models (36 x 36 mm)
- Medium-size models, suitable for both men's and women's wrists (30 x 30 mm)
- Small-size models, a "jewel" watch perfectly suited to the thinnest wrists (25 x 25 mm)

BRISTON 

THE NEW DIALS AND HANDS

In perfect harmony with the style of the case and in black or silver-white, the **Streamliner Kennedy** collection features a 2-layer black or silver-white dial with :

- A top layer with hollowed Roman and Arabic numerals - the dial structure that made the **Clubmaster Classic** such a successful model. The minute track joins the lower central part.

- The lower central part adds depth to the model - With its delicate **guilloché** work in the central part, the dial becomes hypnotic and enhances the elegance of this novelty.

These dials give this new collection a neo-retro character that in no way detracts from its modernity.

All **Streamliner Kennedy** models feature refined **dauphine-shaped** hour/minute hands with white Super-Luminova® inserts. Delicate attention has been paid to the automatic white dial version, which features a blued steel seconds hand.

NEW AUTOMATIC MOVEMENT

Streamliner Kennedy

HMS Auto

We decided to equip the automatic model with the ultra-thin Japanese movement Miyota 9039 manufactured by Citizen.

*Miyota 9039 ultra-thin movement,
mechanical self-winding*

Caliber: 11 ½" (26.2 mm)

Height: 3.90 mm

BRISTON 

NEW QUARTZ MOVEMENT

The medium and small *Streamliner Kennedy* models are driven by the Swiss quartz caliber RONDA 751.

Product line: Normetch

Caliber: 5½ x 6¾", (13.00x15.15 mm)

Frequency: 32,768 Hz.

Jewel: 1

Power reserve up to 7 years (SR521SW - Renata 379)

Functions: hours and minutes

This Swiss movement was selected for the following reasons:

- Very long battery life
- Reduced consumption with stem pulled out: approx. 70% reduction in consumption
- Many high points available (2-layer dials possible)
